### EXAMINER'S AMENDMENT

The following Examiner's Amendment is in reference to the claims filed 3/16/09, and now place claims in condition for allowance.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with H. Jay Spiegel on 4/16/09.

The application has been amended as follows:

In claim 19, line 5, after the word "opening", delete --and--, and insert. "said first and second sheets each having".

Also in line 5, after the word "surfaces" delete--on the first and second sheets respectively--.

Therefore the claim now reads,

19. (currently amended) A cleaner, comprising a cleaner body having first and second sheets partially connected together along respective curved peripheries thereof, said sheets having an opening therebetween, an insertion portion communicating with the opening, and said first and second sheets each having front and rear surfaces ~~on the first and second sheets respectively~~; a convexly curved U-shaped fringe belt having a plurality of fringes on a side thereof and being disposed curvedly on and fusion-

bonded solely to the front surface of the first sheet of the cleaner body with said fringes terminating short of said curved periphery of said first sheet; a supporting body for supporting the cleaner body comprising a handle and supporting rods to be inserted from the opening into the insertion portion of the cleaner body; and a sheet material having a water-absorbing property provided at the rear surface of the second sheet opposite to the front surface on the first sheet where the fringe belt is mounted on the cleaner body.

The following is an examiner's statement of reasons for allowance: the limitation of first and second sheets partially connected to one another along curved peripheries thereof, at least one U-shape fringe belt convexly curved generally corresponding to the curved peripheries of the first and second sheets and extending in a direction of insertion of the supporting body, the fringes termination of short of the curved periphery of the first sheet, a fiber bound body comprising a large number of fibers bundled and being partially surrounded by an inner periphery of the U-shaped fringe belt, was not found in the prior art

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHANTESE MCDONALD whose telephone number is (571)272-4486. The examiner can normally be reached on 8:00 a.m. - 4:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on (571) 272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
